MEMORANDUM FOR: Deputy Director for Intelligence

SUBJECT: Report of Intelligence Project Initiations

1. GSI and later SI published, from May 1950 through May 1951, when it was discontinued, a monthly Report of Intelligence Projects Initiated by Departmental Intelligence Agencies. That Report was compiled in accordance with COAPS, CIA, memorandum of 27 April 1950 to the intelligence organizations of the Departments of the Army, Navy, and Air Force. It was published in two sections, one Secret and one Top Secret, and was issued to the departmental intelligence agencies.

2. In my opinion, the resumption of the publication of this report would have the following merits:

- a. It would make the various intelligence agencies aware of the projects undertaken by each of them.
- b. It should, in many instances, result in the avoidance of duplication of effort and expense by the intelligence agencies.
- c. It would further enable the intelligence agencies to assist one another in the development of their projects.

3. In view of the foregoing, I recommend that such a report again be published, that it include a record of SI projects, and that some Office of CIA be charged with the responsibility for its publication.

[Redacted Signature]

Assistant Director  
Scientific Intelligence
